The screenshot shows the SNS Europe website interface. At the top left is the SNS EUROPE logo. To the right, it says "ENDORSED BY SNIA Europe". Below the logo is a navigation bar with links for "SNS Europe", "StorageWelt", "SNS UK", and "DCS". A search bar with a "go" button is on the right. The main content area is divided into three columns: "Contents" on the left with a list of site sections, "News" in the center featuring an article titled "Imagination Technologies deploys ONStor solution", and "Partners" on the right. The article includes a date of Thursday 20 March 2008, an author "Phil Alsop", and several paragraphs of text discussing the deployment of ONStor's Bobcat 2260 clustered NAS Gateways. A quote from Phil Knowles, UNIX Systems Manager at Imagination Technologies, is included. The article concludes with a statement about reduced downtime. On the right side, there are two empty placeholder boxes, the SNIA Europe ACADEMY logo, a photograph of a server room, and a blue box with the text "Friend or Foe? Who can you trust with your information security?".
